

# PERINATAL QUALITY COLLABORATIVE OF NORTH CAROLINA

## Obstetric Hemorrhage Structure Measures

- 1) Does your facility utilize simulation, including reflective debriefs, to educate staff on obstetric hemorrhage? **YES NO**
- 2) Has your facility established a system in your hospital to perform regular formal debriefs after cases with major complications? **YES NO**
- 3) Has your facility established a process to perform multidisciplinary systems-level reviews on all cases of severe maternal morbidity (including women admitted to the ICU or receiving  $\geq 4$  units RBC transfusions)? **YES NO**
- 4) Does your facility have OB hemorrhage supplies readily available, typically in a cart or mobile box? **YES NO**
- 5) Does your facility have an OB hemorrhage policy and procedure (reviewed and updated in the last 2-3 years) that:
  - Provides a unit-standard approach using a stage-based management plan with checklists
  - Ensures availability to OB hemorrhage supplies at all times**YES NO**
- 6) Has your facility integrated some of the recommended OB Hemorrhage bundle processes (i.e. order sets, tracking tools) into your hospital's Electronic Health Record system? **YES NO**
- 7) Has your facility developed OB specific resources and protocols to support patients, family and staff through major OB complications? **YES NO**
- 8) Does your hospital ensure that every patient has contact with her baby as soon as she is alert and medically stable (contact may include: video call, bringing baby to bedside, taking mom to baby, providing photographs, etc.)? **YES NO**
- 9) Does your hospital assess every patient's desire to begin breastfeeding and/or pumping as soon as she is medically stable, regardless of inpatient unit (e.g., ICU)? **YES NO**
- 10) Does your hospital address the emotional trauma of the event with every patient by normalizing emotional symptoms and providing resources for assisting both patient and family, including the offer of a consult with social work/psychologist/chaplain/etc. prior to discharge, when available? **YES NO**
- 11) Does your hospital ensure that every patient receives thorough discharge education (including, for example, information on: postpartum hemorrhage, hysterectomy, addressing iron deficiency, blood loss, and trauma)? **YES NO**
- 12) Does your hospital offer every patient and family a post-discharge debrief following a hemorrhage event (debrief should address, for example: estimated blood loss, amount of blood patient received, hemorrhage severity/classification, time/line narrative of event and interventions provided, review of the medical record)? **YES NO**
