

Perinatal Quality Collaborative of North Carolina

Data Engine Leading PQCNC's Healthcare Improvement (DELPHI) Instructions

The work we do focuses on making North Carolina the best place to give birth and to be born - guiding us in that work is DELPHI, where teams enter data and view up to the minute reports to track their progress in black and white. Real-time access, real-time data, real-time reporting combine to provide ongoing clinical decision support.

All teams must identify at least one individual to enter data in DELPHI. Below are instructions for setting up a DELPHI account and entering data for the OBH Initiative.

Account Setup (if you do not currently have an account):

- Go to www.pqcnc.org
- Click on “Delphi,” found in the top, right side of the page, across from the PQCNC logo
- Click on “Create new account,” found in the box on the right side of the page under the user login area
- Enter all of the required information (Note: there are two different tabs in which to enter information – “Login Information” and “Contact Information;” the answer to the Security Question is “Keith”)
- Click on “Create new account” at the bottom of the page
- You will receive a confirmation email letting you know that your account is pending approval
- Once your account is approved, you will receive an email that includes a link to log in and set your password; the link can only be used once

Data Entry for Structure Measures:

- Go to www.pqcnc.org
- Click on “Delphi,” found in the top, right side of the page, across from the PQCNC logo
- You should be taken to a new web page
- Enter your Username and Password in the “User Login” box on the right side of the page
- Click on the “Dashboards” tab near the top of the page
- Look for the “Ad-hoc Surveys ” box (see Illustration 1 next page)
- Enter the current date (the date you are entering this data)
- Choose “OBH Initiative: OBH Structure Measures” from the drop-down box”
- Click ‘Create Survey’ button
- Complete Data Entry (see example form)
