## Nulliparous C-section Rate in All Institutions

## Nulliparous C-section Rate - Total

# Admitted in Labor

# BOTTOM LINE!

## “Labor is Important”

Cesarean rate for patients in labor at admission

<b>0-3 cm</b>	<b>18.38%</b>
<b>4+ cm</b>	<b>10.86%</b>
<b>Cesarean rate for induction patients</b>	
<b>0-3 cm</b>	<b>31.34%</b>
<b>4+ cm</b>	<b>28.42%</b>

What are your plans for SIVB 2?

1. Do you have a **physician or team of physician champions?**
2. Do you **have adequate time, space, and/or expertise** to diagnosis labor?
3. Are your **patients educated** with respect to the importance of labor?
4. Do you have multiple mechanisms to **support a patients labor?**
5. Does your institution **track vaginal delivery rate** and **report it back to the providers** specifically in nulliparous patients

# Where do we go from here?

1. Continue With SIVB until we reach our goal.
2. Eliminate elective Deliveries of Mild Pre-eclampsics less than 37 weeks?
3. Management of Obese Obstetric patients
4. Utilizing the 2010 NC Birth Certificate
